NEEMTA

Powered by EM

Neemta is an organic, non-ionic eco-friendly pesticides. It reduces insect feeding and acts as a repellent. Neemta has many complex active ingredients which are not harmful to humans and beneficial insects like bees , butterflies etc.

Advantages over chemical pesticides

- It is safe to use around pets and wildlife.
- Organic & Biodegradable.
- It does not create “Death Zone” as other insecticides can.
- It can be used to control insects at all stages of development.
- It effectively controls many pests including Aphids, Jassids, Thrips, Mites, Bollworms, Borers, Leaf Hoppers, White fly and many other sucking and chewing pests along with many fungus and bacteria.
- Can control Nematodes without harming beneficial Earthworms.
- Insects do not become resistant to neem oil.
- It does not pollute water.

Dosage : 2 – 3 mL/L of Water

Application Method : Foliar spray OR Soil drenching

Crops : All crop
