Maple Orgtech (India) Ltd.

FINCARE

Biodegradable pond sanitizer & disinfectant

FINCARE is a synergistic blend of three different potent broad spectrum disinfectants along with stabilizers for use in Aquaculture. It is specially formulated with Glutaraldehyde, BKC and Formaldehyde in suitable combination to ensure that it provides the maximum efficacy.

Advantages

- **Fincare is a powerful water disinfectant.**
- **Reduces viral, Protozoan, fungal, bacterial and algal growth to a greater extent without altering pond water parameters.**
- **Prevents and controls of all external infections of Shrimp, Prawn & fish.**
- **Eliminates external fouling caused by protozoan parasites, bacterial and algal films.**
- **Improves pond environment and pond water quality.**
- **Resistant to temperature and bio-degradable.**
- **It is safe for fishes and environment and have no side effects and residual toxicity**

Dosage : Prawns/Shrimps: 2.0 – 3.0 L /Ha
Fish: 1.0 – 2.0 L /Ha
(Water depth 1.0 meter)

Direction

Mix Fincare with adequate amount of fresh water at the site and apply all over the pond. Shake well before use.
